

Elroi Luria

Senior Security Architect (AI & Emerging Technologies)

Tel Aviv District, Israel | elroi.luria@gmail.com | [linkedin.com/in/elroiluria](https://www.linkedin.com/in/elroiluria)

Technical Summary

Innovative Security Architect and Product Leader specializing in AI Governance and Emerging Technology. Currently leading a cyber security innovation team at Citi focused on the duality of AI security (Security for AI & AI for Security), alongside Threat Intelligence, Fraud Prevention, and Post-Quantum Cryptography. Expert at synchronizing security, business, product, and data science workstreams to drive resilient organizational agility.

Core Professional Experience

Citi | Cyber Security Innovation Team Leader *May 2023 – Present*

- **AI Security Strategy:** Leading a strategic team focused on the intersection of AI, threat intelligence, and fraud prevention.
- **Technical Integration:** Facilitating collaboration between cybersecurity and data science teams to harness AI for enhanced security measures.
- **Risk Mitigation:** Implementing proactive strategies to identify and mitigate emerging cyber threats in a rapidly evolving landscape.
- **Enterprise AI Enablement:** Spearheaded a GenAI upskilling and utilization workshop series, driving the adoption of secure AI tools across technical and business workstreams.
- **Strategic Leadership & Governance:** Co-founder and core member of the Managers Forum, contributing to organizational strategy and facilitating alignment between cybersecurity innovation, fintech innovation, and broad business objectives.

Citi Security Innovation Center | Senior Innovation Architect *September 2019 – May 2023*

- **Solution Architecture:** Architected and demonstrated disruptive security solutions for identity, mobile, and encryption.
- **R&D Leadership:** Identified cutting-edge technologies and managed design partnerships with industry and academia.
- **Cross-Functional Management:** Served as Product Manager and Dev Manager to promote the adoption of innovative security tools.

PayPal | Senior Incident Response Analyst *March 2016 – July 2018*

- **End-to-End Incident Handling & Orchestration:** Orchestrated the global security incident lifecycle, performing hands-on triage, containment, and technical remediation for high-priority security events.
- **Tactical Threat Hunting:** Executed real-time, proactive security monitoring and deep-dive threat hunting across global infrastructure to identify and neutralize emerging threats.
- **Security Engineering & Tooling:** Designed and built custom security tools and automated workflows to streamline incident response, moving from manual handling to high-efficiency automated detection.

- Forensic Investigation: Conducted focused technical analysis and forensics on global assets, ensuring the protection of system, network, and application data.
- Global Asset Defense: Managed the security posture and protection of global PayPal properties through rigorous incident coordination and direct system intervention.

Komodo Consulting | Information Security Consultant 2010 – 2016

- Technical Implementation: Managed the deployment, development, and integration of Intellinx for major financial institutions, including business logic design.
- Infrastructure Security: Implemented and maintained F5 Web Application Firewalls (WAF) and managed PCI-DSS certifications.

Earlier Career Highlights

- Intellinx Ltd. (Acquired by Bottomline Technologies) | Team Leader (SQA, Support, Documentation): Managed three teams focused on insider fraud, threat intelligence solutions and regulatory compliance. (2004–2009).
- Sabratec (Acquired by Software AG) | SQA Engineer: Quality assurance for legacy modernization solutions (Mainframe/UNIX to Web). (2004–2005).
- AT&T Israel | Network Operations Center (NOC) Manager: Provided 24/7 global support for enterprise routing, VPN, and WAN connectivity. (1999–2004).

Skills, Certifications & Education

- Technical: AI Governance, Cybersecurity, Cloud/Mobile Security, Threat Intelligence.
- Certification: CISSP (Expired).
- Education: M.Mus (Jerusalem Academy, not finalized), BA.Mus (Tel Aviv University), Fullstack Bootcamp (ITC).
